

## Moosters Hallelujah Lane

ADCA #044682

Black

Homozygous polled

PHA and chondro free; parent verified at UC Davis

A2A2

Sire: PRF Hondo Lane

Dam: Glenn Land Ms. Willa

\$1500

Hallie is going to be a beautiful and productive Dexter cow! Her dam, Willa, shown below, is a medium size with a large frame and we expect to see the same build and size with Hallie. Born 3/31/18, Hallie is homozygous polled (she can never produce a horned calf), carries one copy of E+ red, A2A2, PHA and chondrodysplasia free. Like all our heifers, she is parentage verified to her dam and her sire, PRF Hondo Lane. She has started basic halter training, but we, at this point, would not call her halter trained quite yet! Her price will increase as her level of halter training increases in the spring.
