

Moosters Sunshine Mary

ADCA #044355

Black

Heterozygous polled

PHA and chondro free; parent verified at UC Davis

A2A2

Sire: PRF Hondo Lane

Dam: HC Rosaleen

\$1200

We love Mary! She's going to be a duplicate of her dam, HC Rosaleen (shown below. Rosaleen was on our show string until her first calf arrived). She's a going to be long bodied, medium framed, and exceptionally pretty heifer. She has great feet just like her sire and dam, along with that broad muzzle that we like to see for grazing ability. All of our HC cows produce heifers with lovely udders with great forward attachment and four even quarters. Mary has had some basic halter training, but we would not say she is fully halter trained yet.
