Betsy and her 2024 heifer calf are very sweet Dexters. Betsy is small, but has depth and a nice udder appropriate for her size. Elsbeth is growing nicely. Based on the size of her sire, Moosters Cold Front, Elsbeth will likely be larger than her dam, but will be well conformed and thick with good depth. She has a lovely topline and nice feet.

Betsy is bred back to Moosters Rory Calhoun or to Little Hoof Cooper for an early spring calf in 2025.
