

Moosters Lovey's Dovey

ADCA # 058061

Born March 10, 2025

Homozygous polled Red

Testing done at UC Davis

A2A2 obligate; PHA and chondrodysplasia free

Sire: Little Hoof Cooper ADCA #049060

Dam: Moosters Lovey ADCA#047583

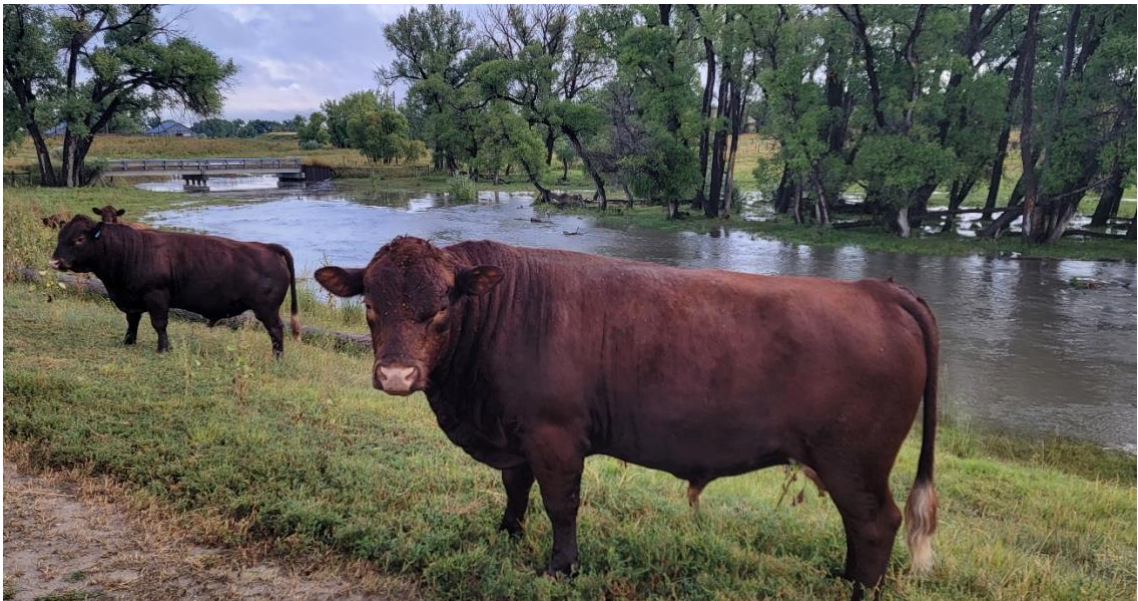

\$2000

The color on this heifer! Dovey is E+/e red and carries two copies of dun. She is deep red with lighter "dun" eyes and a dark pink nose like her dam, Lovey. She's just stunning. Beyond color, you will find a truly well built heifer. Her dam has a beautiful udder and is big and broad. Sire Little Hoof Cooper brings the beef!

We plan to lead train Dovey, but will happily provide a 10% discount if she is sold untrained and before we begin her halter work (which will begin mid-September at weaning).

Her dam, Moosters Lovey

Her sire, Little Hoof Cooper
