Testing done at UC Davis

A2A2 obligate; PHA and chondrodysplasia free

Sire: MM Ransom ADCA #037208

Dam: MM Sojourner ADCA#034674

\$2200

Gabby is the sweetest cow which makes her fairly low on the totem pole within our herd, She is an excellent mom and has raised two nice bull calves for us. Her udder is level and high/tight and she has great width and girth. She is minimally halter trained (she will walk easily with you once she's caught). Gabby is bred back (and has been confirmed bred via Biopryn blood testing) to Moosters Red Rover for a late spring 2026 calf.
