Sephora is out of one of our favorite cows, Sushi. We'd expect that Sephora will follow in her mother's footsteps (we've retained one of her older sisters, so we have a pretty good idea of how Sephora will look in the future) as a broad and deep cow with exceptional girth, great feet and legs, and a lovely udder. Sire Little Hoof Cooper brings the beef!

We plan to lead train Sephora, but will happily provide a 10% discount if she is sold untrained and before we begin her halter work (which will begin mid-September at weaning).
